

## PRESS RELEASE

Date: 27<sup>th</sup> November 2006

For Immediate Release

## HOVER HEAVEN!

<b>Title:</b>	<b>Schweizer 300CBi</b>
<b>Label:</b>	<b>Just Flight</b>
<b>Developer:</b>	<b>Just Flight</b>
<b>Genre</b>	<b>Flight Simulation</b>
<b>Release</b>	<b>Out Now - Download Only</b>
<b>SRP</b>	<b>£ 9.75 / €14.50 / \$ 17.50</b>

Just Flight have announced the release of their first ever helicopter simulation add-on.

A small helicopter but a great simulation! One of the most popular General Aviation utility and training helicopters in the World is now available for FSX and FS2004. The S300CBi is modelled in extreme high-quality detail based on extensive research on the real-world aircraft. The aircraft is supplied with a set of unique tools to customise and enhance your rotary flying experience.

For further details and some stunning screenshots [click here](#)

### Detailed features:

- Highly accurate and intricately detailed model.
- Authentic custom sound built from the real aircraft sounds in and out.
- Highly realistic custom flight model created by an industry leader in this field.
- High quality authentic aircraft textures inside and out giving you that “real feel”.
- Immersive virtual cockpit with mouse clickable instruments and knobs.
- Authentic 2D instrument panel included.
- Authentic animations; Rotors, rotating belts, moving swash plates, entry doors, even the door handles work!
- Details, details! Highly detailed engine and rotor drives and small but important items like the Comms and Nav radio antennas, footsteps, tie down points, door hinges, temperature gauge probes, fuel tank caps – you can even see the printing on the individual drive belts, all individually numbered!
- Variety for fun flying! Aircraft variations include the choice of one or two fuel tanks (with appropriate changes in flight performance), four different paint schemes with 6 authentic national aircraft registrations. In total there are 100 variations to choose from! Even flying

with or without a passenger is an option!

- Custom model and nation/registration selection tool for easy selection of the aircraft variation that you wish to fly. You will even see the correct number of people in the cabin!
- AeroPaint texture utility. Create new custom liveries of the aircraft or edit the existing ones. (External painting program required such as MS Paint).
- Operating navigation and landing lights.
- Cockpit night lighting.
- Full and comprehensive documentation included based on the real aircraft manual, covering technical details, panel and gauge descriptions, normal and emergency procedures, checklists and much more.
- A dedicated website [www.jfflyingclub.com](http://www.jfflyingclub.com) to meet other Flying Club pilots, share your experiences, tips and download additional files, paints and resources and enhance the features of your Flying Club.

**SOFTWARE REQUIREMENTS:** Flight Simulator X or 2004, Windows XP

**HARDWARE REQUIREMENTS:** PC with 1.7GHz equivalent or higher processor (2.5GHz for FSX), 512Mb RAM (1.0Gb for FSX), 64Mb graphics card (128Mb for FSX), 1.5Gb hard drive space

## About Just Flight

Just Flight is the world's leading flight simulation specialist, publishing a wide variety of digital aviation products. Their range comprises a multitude of different titles, including stand alone flight simulations as well as add-ons for Microsoft's multi-million selling Flight Simulator and Combat Flight Simulator. Just Flight also has Just Trains, a specialist label devoted to stand alone train simulators as well as add-ons for the ever-popular Microsoft Train Simulator.

A British company, based in Cambridge, Just Flight has been established for over ten years. It prides itself on quality, value and customer service, which it backs up with a unique money-back guarantee on all its products.
