HEAVY TRAFFIC WORLDWIDE! MILITARY PLUSPAK AIRBORNE!

The latest release in Just Flight's PlusPak series, Traffic PlusPak – Military 1, is released today and is available exclusively from the Download section at www.justflight.com.

This expansion has been developed to add a range of military AI aircraft to Just Flight's Traffic 2004 and Traffic 2005 programs. It also works on its own as an expansion for Flight Simulator X or 2004 and adds military aircraft to the default traffic.

The program comes with 10 brand new aircraft - Blackhawk helicopter, Boeing KC135, C-130J Hercules, E3 AWACS, F-117A Nighthawk, F-18C Hornet, T-45 Goshawk, BAE Hawk 51/64/65, BAE Hawk T1/Aden Cannon, MiG-29/K, Mirage 2000 and Tornado GR4 ECR/GR4A/IDS. The aircraft feature a range of animations for their particular type including ladders, arrestor hooks, drag chutes and more.

With 34 nations and a wide range of units featured, the pack contains over 170 different variants.

Paul Hyslop of Just Flight said "The PlusPaks are designed to be 'standalone expansions' and they're something unique in the FS world. We're pleased to be the pioneers of this idea at Just Flight. At only £7.99 they're fantastic value and the latest Military Aircraft PlusPak is sure to fill a large gap in virtual pilots' AI hangars."
