

# PRESS RELEASE

Date: 16<sup>th</sup> May 2007

For Immediate Release

For further information, pack shots, samples or assets, please contact Scott Phillips – [scott@justflight.com](mailto:scott@justflight.com)

## SECOND'S OUT!

**Just Flight is pleased to announce the release of the second volume of its highly anticipated VFR Real Scenery series for Flight Simulator X**

VFR Real Scenery - Central & Southern England is due to ship out from Just Flight on 25<sup>th</sup> May. The latest volume in this hugely popular is set to transform Flight Simulator X with amazing photographic scenery that includes night lighting, coastlines and water effects.

**And for a limited time only Just Flight are offering you a fantastic offer on their VFR Real Scenery series. Just Flight is offering VFR Real Scenery volumes 1 and 2 (normally £24.99 each) plus a copy of Flight Simulator X deluxe for just £59.97. The normal retail price for this attractive threesome would be a whopping £109.97!**

**The offer is for a limited time, while stocks last; postage in the UK is free and it's available exclusively from Just Flight. For full details of the deal [click here](#)**

VFR stands for 'Visual Flight Rules' - this is the way that pilots navigate when they aren't using complex instruments – they look at a map and then pinpoint landmarks on the ground to work out their position. Doing this in a flight simulator requires scenery that's exactly the same as the real landscape. VFR Real Scenery is an amazing piece of software that provides just that - fly over England and Wales in Flight Simulator X and sample the view you'd get from a real aircraft. You can see the real countryside from the air and pinpoint every key landmark. They're all featured – streets, buildings, rivers, lakes, reservoirs... and all at extremely high resolution and detail!

### **VOLUME 2: Central & Southern England**

Covers all of Hampshire, Berkshire, Wiltshire, Buckinghamshire, Oxfordshire, Gloucestershire, Warwickshire, Worcestershire, Leicestershire, Nottinghamshire, Staffordshire and parts of Dorset, West Sussex, Surrey, Northamptonshire, Derbyshire, Shropshire, Herefordshire and Cheshire.

Principal towns covered include: Southampton, Portsmouth, Reading, Salisbury, Swindon, Oxford, Cheltenham, Milton Keynes, Northampton, Birmingham, Leicester, Nottingham, Derby and Stoke.

- VFR Real Scenery uses the very latest 25cm digital aerial images from GeoPerspectives displayed at 1m per pixel resolution in FSX.
- Includes 9.6m mesh terrain data which hugely improves the default relief.
- Individually edited night textures make flying after dark a real eye-opener!

- Water features are rendered with Flight Simulator X water effects – you can land a seaplane in VFR Real Scenery.
- Airport runways are correctly aligned between FSX and VFR Real Scenery – there are no ghosts in VFR Real!

Just Flight's Simon Martin, who has been heading up the development and testing team, commented on the imminent release: "We're extremely proud of this software. We're taking our time in releasing each of the four volumes, but we think the results are well worth the wait. We could have left out the night lighting, water effects, coastlines or runway correction, but our aim has always been to give our customers something that is as good as we can make it. The other volumes in the series are scheduled for release over the next couple of months and they'll all feature the same high level of attention to detail."

### **About Just Flight**

Just Flight is the world's leading flight simulation specialist, publishing a wide variety of digital aviation products. Their range comprises a multitude of different titles, including stand alone flight simulations as well as add-ons for Microsoft's multi-million selling Flight Simulator and Combat Flight Simulator. Just Flight also has Just Trains, a specialist label devoted to stand alone train simulators as well as add-ons for the ever-popular Microsoft Train Simulator.

A British company, based in Cambridgeshire, Just Flight has been established for over ten years. It prides itself on quality, value and customer service, which it backs up with a unique money-back guarantee on all its products.

### **About GeoPerspectives™**

GeoPerspectives, formerly marketed as UK Perspectives, is the only brand that offers national orthorectified aerial imagery and a guaranteed rolling five-year update programme. GeoPerspectives uses the latest technology to capture the most accurate and up-to-date aerial photography, colour infra-red imagery and digital terrain & surface models of England and Wales. GeoPerspectives data is used by government, commercial and academic professionals, including the Department for the Environment Farming and Rural Affairs (Defra), Highways Agency, Yorkshire Water and many UK Local Authorities.

GeoPerspectives is a joint venture between Infoterra Ltd and BlueSky International Ltd.
