US Barcode:	TBA

An exciting mission pack series for Flight Simulator X is on its way!

Rescue Pilot – Mission Pack is the first in a series of exciting expansions from Just Flight that takes advantage of the new Flight Simulator X missions feature.

Flight simulation fans now get the chance to put their virtual flying skills to use. You are a pilot of an air rescue medical service and your job is to respond to any emergency calls that are received at your home base. A typical day for a Just Flight Rescue Pilot could find him airlifting an injured person from a car accident, picking up a stranded mountaineer or flying a life-or-death dash with a vital medical cargo. The work is always challenging - but never dull - and the job satisfaction is immense!

Rescue Pilots must use their flying experience to the full in a variety of fixed wing and rotary aircraft to complete the missions but there is also a choice of settings to match an individual's skill levels.

The twelve authentic missions with realistic ATC and convincing scenarios will keep virtual rescuers glued to their joysticks. It's time to get airborne and do your bit!

Rescue Pilot is now featured in the In Development section on the Just Flight website, for further details [click here](#)
