STAND BY! MILITARY AIRCRAFT 2 IS HERE!

The latest release in Just Flight’s Traffic PlusPak series, Military Aircraft 2, is now available from the Download section at www.justflight.com. Click here for full details.

This expansion has been developed to add a further range of military AI aircraft to Just Flight’s highly popular Traffic program. It also works on its own as an expansion for Flight Simulator X or 2004 and adds military aircraft to the default traffic.

From fighters that come in fast and low to the mighty C17 Globemaster, Military Aircraft 2 adds 160 new AI aircraft. There are ten new aircraft models included, plus six military variations of existing civil models. This PlusPak features aircraft from the forces of more than 30 nations and provides some new military airfield facilities that are missing in the default FS world.

Wolfgang Schwarz of Just Flight said “The PlusPaks are designed to be ‘standalone expansions’ and they’re something unique in the FS world. At only £7.99 they're fantastic value and our second Military Aircraft PlusPak will fill another gap in virtual pilots' AI hangars.”
