SIMULATION – THE FINAL FRONTIER!

Title Space Shuttle
Label Just Flight
Developer: Captain Sim
Genre Flight Simulation
UK Release 10th August 2007
SRP £19.99 / €29.95 / $34.99
UK Barcode:  5035063005612
French Barcode: 5035063005629
German barcode: 5035063005636
US Barcode: 893782001132

Flight Simulation is about to enter a new dimension thanks to the Space Shuttle!

Just Flight is pleased to announce that Space Shuttle will soon be touching down on retailers’ shelves around the World. This unique expansion for Flight Simulator X takes Flight Simulation into orbit. Now, armchair pilots can swap their headsets for space suits and bring the Shuttle back from space and a safe landfall at Kennedy Space Centre.

The development team at Captain Sim has harnessed the skills of a Shuttle-trained Cosmonaut to develop a flight sim first. All six Shuttle orbiters are faithfully modelled and the systems and avionics are re-created to an extremely high level of detail. It’s out of this world!

- Panels include hi-res 2D, virtual cockpit, Commander view 2D panel, HUD, exterior model animation control panel, simicons panel, radio panel and GPS panels
- Software features a video ‘launch’ to start the program and set the scene for the journey back to terra firma.
- Amazing animations include payload bay doors, SRMS (Shuttle Remote Manipulator System), drag chute, radiators and landing gear.
- Includes a voice package with 19 cues based on actual crew and Mission Control communications. This operates in real time according to current flight situation.
- The package includes the radio aids that provide original Space Shuttle -19°/-17° steep OGS glide slope and shallow glide slope for runway 15 and 33 at the NASA Shuttle Landing Facility (X68) in Florida.
- Manual features a custom tutorial prepared by Just Flight to guide virtual astronauts back to Earth.
- Bonus version with limited features for Flight Simulator 2004 is included in the package.
Why not visit the Space Shuttle product page on the Just Flight website. We do recommend you take a look at the fantastic new Shuttle video. It can be found at the bottom of the product page. Click here for details and to access the video.

SOFTWARE REQUIREMENTS: Microsoft™ Flight Simulator X – Windows XP

HARDWARE REQUIREMENTS: PC with 2.5GHz (equivalent or higher) processor, 1.0Gb RAM, graphics card with 128Mb (or higher) video memory, DVD-ROM drive, Hard disc space 1.0Gb

About Just Flight

Just Flight is the world's leading flight simulation specialist, publishing a wide variety of digital aviation products. Their range comprises a multitude of different titles, including stand alone flight simulations as well as add-ons for Microsoft's multi-million selling Flight Simulator and Combat Flight Simulator. Just Flight also has Just Trains, a specialist label devoted to stand alone train simulators as well as add-ons for the ever-popular Microsoft Train Simulator.

A British company, based in Huntingdon, Just Flight has been established for over ten years. It prides itself on quality, value and customer service, which it backs up with a unique money-back guarantee on all its products.

About The Space Shuttle

For over a quarter of a century the Space Shuttle (or Space Transportation System – its official name) has been a highly successful and cost effective way of launching satellites, carrying out experiments and building the International Space Station.
