

PRESS RELEASE

Date: 11th September 2006
For Immediate Release

The latest PlusPak is on its way to work!

The latest release in Just Flight's new PlusPak series, Traffic PlusPak – Commuter Aircraft 1, is now released and is available exclusively from the Download Shop at www.justflight.com.

This expansion has been developed to increase the number and variety of commuter aircraft in Just Flight's Traffic 2004 and Traffic 2005 programs. It also works on its own as an expansion for FS2004 and adds new AI (Artificial Intelligence) aircraft to the default traffic. The program comes with a total of 100 individual aircraft and is designed to increase AI commuter traffic worldwide; there are many new locations that will benefit from increased regional traffic coverage – especially those in North America, Europe and South Africa.

Commuter Aircraft 1 adds a new dimension to the Traffic 2004/5 experience by providing more commuter models and populating many smaller regional airfields.

Paul Hyslop of Just Flight said "The PlusPaks are designed to be 'standalone expansions' and they're something unique in the FS world. We're pleased to be the pioneers of this idea at Just Flight. At only £7.99 they're fantastic value and the latest Commuter Aircraft PlusPak is sure to be very popular."

About Just Flight

Just Flight is the world's leading flight simulation specialist, publishing a wide variety of digital aviation products. Their range comprises a multitude of different titles, including stand alone flight simulations as well as add-ons for Microsoft's multi-million selling Flight Simulator and Combat Flight Simulator. Just Flight also has Just Trains, a specialist label devoted to stand alone train simulators as well as add-ons for the ever-popular Microsoft Train Simulator.

A British company, based in Huntingdon, Just Flight has been established for over ten years. It prides itself on quality, value and customer service, which it backs up with a unique money-back guarantee on all its products.
